

Rebate, Refund and Drawback Look Up

How it works:

- To use the Rebate, Refund and Drawback Look Up, the tariff code of the commodity must be known. If this is not the case, click on Button 1 (right) to determine the tariff code with our Tariff Code Look Up Tool.
- Click on the Schedule buttons below. A new document will open each time. It is advisable to consult all four.
- Read the notes at the start of each Schedule for possible rules and exceptions applicable to your commodity.
- Press 'Control F' on your computer keyboard. A search box will appear on your screen.
- Type the first four digits of your tariff code into the search box and click enter. This will navigate you to the right area in the Schedule.
- Scroll down until you have found a match to your tariff code. If your tariff code does not appear in any of the Schedules, no rebate, refund or drawback is available for your goods.
- A rebate, refund or drawback applicable to your tariff code will be indicated as follows:
